# KEEP YOUR HANDS CLEAN

Do you still have those binders in your hotel rooms with interesting information and flyers for your guests?

To be honest, don't you think those are a bit outdated? Digitalisation is the future and whether you like it or not, you too should be busy with digitising those outdated features in order to stay on top.

# NO MORE APPS PLEASE!

Apps, apps, apps are everything! But why would a guest download an app just for a short stay at your hotel?

This is why we created a webapp to stay in touch with your guest and to communicate any information you like.

You can not only use this webapp as a way to communicate, but also to open your hotel doors.

Just integrate our connector into your RFID-locks to make magic happen.

# MEET GUESTKEY

Meet GuestKey, a complete solution for a more digitised future without losing the contact with your guests.

You might probably ask yourself if this is the right time to start innovating. The COVID-19 virus has turned all of our lives upside down and is not making it quite easy to keep our heads above water.

# HERE'S OUR FREE OFFER: TRY GUESTKEY FREE FOR THREE MONTHS!

The image displays four smartphone screens, each representing a different tier of the Guest Key app. Each screen features the 'Guest Key' logo at the top, followed by the text 'OPEN OPPORTUNITIES'. The central focus is a large padlock icon: green for Standard, silver for Silver, gold for Gold, and grey for Platinum. Below the icon, the tier name is written in large letters, followed by a list of features. The Hotek logo is at the bottom of each screen. A large 'Guest Key' logo is centered at the bottom of the entire graphic.
