WE NEED TO KEEP DISTANCE...

Social distancing is one of the most important precautions we can all take. We not only need to keep a bigger distance from each other, but it has become a need. A need that hotels also have to fulfill.

MEET GUESTKEY

The key to your hotel rooms and guests.

GuestKey helps you **give your guests the best service and experience**, but from a distance. With our webapp you create an extra form of communication that you can use to inform your guests. Give them relevant information, show them the wifi-password or even ask them for a review. Is it a positive one? Then it will be directly posted on the booking website. Does the guest have some critical remarks? Then they will be directly sent to the reception so you can adjust your service.
